

## Architectural Aluminium Systems - reassurance from concept to completion.

SPECIALISTS IN  
ARCHITECTURAL  
ALUMINIUM SYSTEMS

Comar Architectural Aluminium Systems deliver architectural aluminium solutions for the building envelope. Over 700 integrated profiles combine to provide sustainable, slim sight-line aluminium window, door, ground floor treatment, curtain walling and roof glazing systems.

Comar consistently achieves design reality for projects as broad as retail complexes to hospitals. The delivery of technical advice, such as project-by-project wind-loading, u-Value calculation and CAD detailing means that more and more specifiers are choosing Comar to exceed their clients' expectations. All this is backed by Comar's market leading stock holding and fast-track delivery schedule.

**Comar: Designed for Performance, Backed by Delivery.**
