

Costa Coffee, Bedford.

Comar Architectural Aluminium Systems; with their approved fabricator PAGE Group Peterborough Ltd have completed a new build Costa Coffee drive-thru restaurant in Bedford. This is part of the Costa Coffee nationwide expansion programme and is located on a high traffic retail park which enjoys ample parking.

Comar 6EFT stick build curtain walling was specified for this project. Comar 6EFT provides a capped curtain walling solution and offers architects the opportunity to maximise large glazed areas as it has the slimmest sightlines available making it the perfect choice for the glazed facade of this restaurant.

In a very busy retail environment, Comar 7P.i Commercial Doors are a natural choice. Not only are they available in swing, pivot, sliding, auto-sliding and sliding/folding, they have been designed specifically for retail applications where high traffic solutions are required. The Comar 7P.i CD swing doors are required to comply with the Disability & Equality Act 2010 and were installed with a low-rise threshold. For safety anti-finger trap stiles were also fitted with Axim concealed transom closers which were hung directly from the Comar 6EFT curtain wall again enforcing the reduced the sight lines.

All Comar approved fabricators are required to have the technical expertise to attend pre-site meetings and provide detailing. PAGE Group Peterborough Ltd liaised closely with the specifiers to provide design advice and detailing which ensured the project ran smoothly and met site deadlines.

PROJECT DETAILS

Architects:
Langley Hall Associates

Fabricator:
PAGE Group Peterborough Ltd

Main Contractor:
Ashe Construction

Project Value: £30,000

System Used:
Comar 6EFT Stick Build &
7P.i CD

Location: Bedford

Costa Coffee, Bedford.

The Parkside Group incorporates Comar Architectural Aluminium Systems, Alu-Timber, an aluminium/timber composite system of windows, doors and framing, Axim Architectural Hardware and Duco ventilation and sun control.

This provides a unique opportunity for specifiers and fabricators to rely on a single source for building envelope and integrated systems.

Comar
Comar Architectural Aluminium Systems is the largest British, privately owned aluminium systems company in Europe. Comar designs, extrudes and distributes over 700 integrated profiles to a nationwide approved fabricator network for use in aluminium ground floor treatment, window, door and curtain walling applications. Comar has built its reputation on delivery; over £5M of mill, white polyester powder coating, silver, bronze and anodised profiles are kept in stock. This means that 99% of orders are fulfilled by our customers' weekly delivery.

Alu-Timber - Merging Material Solutions. Creating sustainable, energy efficient buildings is a cornerstone of design.

Alu-Timber, a range of aluminium/timber windows, doors and framing, that combines sustainably grown FSC or PEFC timbers with 100% recyclable aluminium. Alu-Timber gives the specifier benefits: low U-values to achieve current legislation as well as reassurance for the client that the facade will last, with minimal maintenance.

Comar Duco
Comar-Duco produce market leading ventilation and sun control products that continually evolve to meet the latest demands that building regulations command. This comprehensive solution to provide single source aluminium facades, with ventilation and solar shading, incorporates Window Ventilation, including acoustic ventilation, Architectural Louvres, Continuous Louvre Walls and Solar Shading.

Axim
As part of the The Parkside Group, Axim supply a full range of architectural aluminium door hardware including: concealed transom closers, floor springs, surface mounted closers, flush bolts, panic exit devices, handles, letter plates and other ancillary items.

RIBA CPD Provider
The Parkside Group provides RIBA assessed CPD seminars to architects and specifiers throughout the UK. Please contact us for further details.

Nationwide Architectural Specification Team
Comar Architectural Aluminium Systems have a nationwide team of architectural advisors who specialise in providing architects and specifiers with project support and NBS specifications. Fabricators and installers are supported by a team of Territory Managers.

GROUND FLOOR TREATMENT	
COMAR 1	Single Glazed GFT
