

## Mercedes Benz, Milton Keynes.

Comar Architectural Aluminium Systems; with their approved fabricator PAGE Group Peterborough have completed a prestigious new car showroom and vehicle handover centre for Mercedes Benz in Milton Keynes. This project was completed using Comar 6EFT Stick Build Curtain Walling & Comar 7 Commercial Doors in configurations of Auto-Sliding and Swing fitted with Anti Finger Trap stiles.

The striking curved facade was installed to optimise the visual display opportunities, an essential requirement for an upmarket retail car showroom. Comar 6EFT 4sided SG provides a structurally glazed curtain walling solution with EPDM or Silicon seals, EFT offers architects the opportunity to maximise large glazed areas as it has the slimmest glazing seals available making it the perfect choice for a Mercedes Benz showroom.

In a busy retail environment, Comar 7 door sets are a natural choice. Not only are they available in swing, pivot, sliding, auto-sliding and sliding/folding, they have been designed specifically for retail applications where high traffic solutions are required. For safety, the Comar 7 swing doors were fitted with anti-finger trap stiles and Axim concealed transom closers which were hung directly from the Comar 6EFT curtain wall again enforcing the reduced the sight lines.

All Comar approved fabricators are required to have the technical expertise to attend pre-site meetings and provide detailing. PAGE Group Peterborough liaised closely with the specifiers to provide design advice and detailing which ensured the project ran smoothly and met site deadlines.

### PROJECT DETAILS

Architects:  
Ayshford Sansome Architects

Fabricator:  
PAGE Group Peterborough

Main Contractor:  
Ashe Construction

Project Value:  
£45,000

System Used:  
Comar 6 EFT Stick Build & Comar 7 (Sliding & AFT)

Location:  
Milton Keynes

# Mercedes Benz, Milton Keynes .

The Parkside Group incorporates Comar Architectural Aluminium Systems, Alu-Timber, an aluminium/timber composite system of windows, doors and framing, Axim Architectural Hardware and Duco ventilation and sun control.

This provides a unique opportunity for specifiers and fabricators to rely on a single source for building envelope and integrated systems.

Comar  
Comar Architectural Aluminium Systems is the largest British, privately owned aluminium systems company in Europe. Comar designs, extrudes and distributes over 700 integrated profiles to a nationwide approved fabricator network for use in aluminium ground floor treatment, window, door and curtain walling applications. Comar has built its reputation on delivery; over £5M of mill, white polyester powder coating, silver, bronze and anodised profiles are kept in stock. This means that 99% of orders are fulfilled by our customers' weekly delivery.

Alu-Timber - Merging Material Solutions. Creating sustainable, energy efficient buildings is a cornerstone of design.

Alu-Timber, a range of aluminium/timber windows, doors and framing, that combines sustainably grown FSC or PEFC timbers with 100% recyclable aluminium. Alu-Timber gives the specifier benefits: low U-values to achieve current legislation as well as reassurance for the client that the facade will last, with minimal maintenance.

Comar Duco  
Comar-Duco produce market leading ventilation and sun control products that continually evolve to meet the latest demands that building regulations command. This comprehensive solution to provide single source aluminium facades, with ventilation and solar shading, incorporates Window Ventilation, including acoustic ventilation, Architectural Louvres, Continuous Louvre Walls and Solar Shading.

Axim  
As part of the The Parkside Group, Axim supply a full range of architectural aluminium door hardware including: concealed transom closers, floor springs, surface mounted closers, flush bolts, panic exit devices, handles, letter plates and other ancillary items.

RIBA CPD Provider  
The Parkside Group provides RIBA assessed CPD seminars to architects and specifiers throughout the UK. Please contact us for further details.

Nationwide Architectural Specification Team  
Comar Architectural Aluminium Systems have a nationwide team of architectural advisors who specialise in providing architects and specifiers with project support and NBS specifications. Fabricators and installers are supported by a team of Territory Managers.
