ARCHITECTURAL ALUMINIUM SYSTEMS

## Waitrose, Bracknell.

Comar Architectural Aluminium Systems, with their approved fabricator Project Aluminium Ltd., recently completed a new flagship Waitrose store in Bracknell, Berkshire. Waitrose's greenest store to date and part of their commitment to promoting a green agenda, this 25,000 sq ft store is delivering a key part of the town centre's regeneration programme and has created new jobs for local people. Incorporating new pioneering sustainability features that will reduce carbon dioxide emissions by a staggering 80%, this innovative store is the first to trial biodiversity features including a 'living wall' and a 'bug' hotel.

Comar 5P.i tilt and turn windows and Comar 7P.i doors were selected. Polyamide Insulated (P.i) window and door systems provide exceptional thermal performance in a market where energy efficient designs and meeting the demands of the latest building regulations are paramount. For the sleek modern façade, Comar 6 curtain walling was specified. Comar 6 curtain walling is a versatile thermally efficient system designed to integrate panels and glass of different widths into the façade with special profiles to include opening vents and doors. The design of Comar 6 makes it ideal for complex faceted curtain walls as well as sheer glazed façades.

In a busy retail environment, Comar 7 commercial door sets are a natural choice. Not only are they available in swing, pivot, sliding, auto-sliding and sliding folding, they have been designed specifically for applications where high traffic solutions are required. For safety, the Comar 7 doors were fitted with anti-finger trap stiles, Axim soft touch panic exit devices and Axim concealed transom closers which were hung directly from the Comar 6 frame. All aluminium systems were finished in polyester powder coat, White RAL 7012 for the interior and Grey RAL 7012 for the exterior.

All Comar approved fabricators are required to have the technical expertise to attend pre-site meetings and provide detailing. Project Aluminium Ltd., liaised closely with the specifiers to provide design advice and detailing which ensured the project ran smoothly and met site deadlines.

### PROJECT DETAILS

Architects  
BDP Clerkenwell

Fabricator  
Project Aluminium Ltd

Main Contractor  
Wates Construction

Project Value  
£162K

System Used  
Comar 5P.i (T&T), 6 (Step Cut),  
7 Auto & 7P.i

Location  
Bracknell, Berkshire

## Waitrose, Bracknell.

The Parkside Group incorporates Comar Architectural Aluminium Systems, Alu-Timber, an aluminium/timber composite system of windows, doors and framing, Axim Architectural Hardware and Duco ventilation and sun control.

This provides a unique opportunity for specifiers and fabricators to rely on a single source for building envelope and integrated systems.

Comar Architectural Aluminium Systems is the largest British, privately owned aluminium systems company in Europe. Comar designs, extrudes and distributes over 700 integrated profiles to a nationwide approved fabricator network for use in aluminium ground floor treatment, window, door and curtain walling applications. Comar has built its reputation on delivery; over £5M of mill, white polyester powder coating, silver, bronze and anodised profiles are kept in stock. This means that 99% of orders are fulfilled by our customers' weekly delivery.

Alu-Timber - Merging Material Solutions. Creating sustainable, energy efficient buildings is a cornerstone of design.

Alu-Timber, a range of aluminium/timber windows, doors and framing, that combines sustainably grown FSC or PEFC timbers with 100% recyclable aluminium. Alu-Timber gives the specifier benefits: low U-values to achieve current legislation as well as reassurance for the client that the facade will last, with minimal maintenance.

Comar Duco produce market leading ventilation and sun control products that continually evolve to meet the latest demands that building regulations command. This comprehensive solution to provide single source aluminium facades, with ventilation and solar shading, incorporates Window Ventilation, including acoustic ventilation, Architectural Louvres, Continuous Louvre Walls and Solar Shading.

Axim As part of the The Parkside Group, Axim supply a full range of architectural aluminium door hardware including: concealed transom closers, floor springs, surface mounted closers, flush bolts, panic exit devices, handles, letter plates and other ancillary items.

RIBA CPD Provider The Parkside Group provides RIBA assessed CPD seminars to architects and specifiers throughout the UK. Please contact us for further details.

Nationwide Architectural Specification Team Comar Architectural Aluminium Systems have a nationwide team of architectural advisors who specialise in providing architects and specifiers with project support and NBS specifications. Fabricators and installers are supported by a team of Territory Managers.

### GROUND FLOOR TREATMENT

<b>COMAR 1</b>	Single Glazed GFT
<b>COMAR 3</b>	Double Glazed GFT
<b>COMAR 4</b>	Single Glazed GFT
<b>COMAR 8</b>	Fin/Bead GFT

### CURTAIN WALLING

<b>COMAR 6</b>	Curtain Walling, Stick Build & Ladder Frame, Square Cut & Step Cut.
<b>COMAR 6</b>	EFT Structural Glazing 2 & 4 sided
