

Sustainability Policy

Bailey CW Ltd is committed to sustainable development (meeting the needs of the present without compromising the ability of future generations to meet their own needs) as a guiding principle within our work. Concern for the environment is an integral and fundamental part of this commitment. Our aim is to reduce the impact on the environment by our operations.

The Organisation operates an Environmental management system that is aligned to the requirements of ISO 4001 and BES6001.

It is the declared policy of Bailey CW Ltd to carry out all measures reasonably practicable to meet, exceed or develop all necessary or desirable requirements.

Our Key Commitments:

- Ensuring compliance with all relevant legislation and standards, and the expectations of our customers and other key stakeholders
- Ensuring our employees and suppliers are able and are encouraged to support our sustainability commitments
- Ensuring we continually review how we can make improvements to our sustainability performance
- Reduce the consumption of resources and improve the efficient use of those resources
- Act to reduce the carbon footprint of our activities by minimising energy use and promoting energy conservation
- Manage activities with the aim of minimising waste production and pollution
- Promote waste minimisation and reduce the environmental impact of waste to landfill through beneficial reuse and recycling activities
- Where practicable, consider environmental criteria whilst purchasing goods and services
- Comply with all relevant environmental legislation and associated requirements
- Communicate this policy internally and externally, whenever appropriate, and encourage feedback
- Work together with staff and volunteers, service partners, suppliers, landlords and their agents to promote improved environmental performance
- Work to continuously improve our environmental performance
- Plan to achieve our environmental objectives

To reduce energy and resource consumption.

To minimise the amount of waste generated.

To reduce emissions to air.

To prevent pollution.

Group Managing Director
Paul Martin
